FINANCIAL AND COMMERCIAL

BATURDAY, Oct. 17-6 P. M. The gold market was heavy during the early part of the day and after opening at 1384 the price declined to 136%, but subsequently there was an advance to 1374 in consequence of purchases to cover "short" contracts induenced by an advance in the rates of interest paid for the use of gold. The imrovement was not sustained, however, and the losing price prior to the adjournment of the coard, at three o'clock, was 137, following which there was no recovery, and the latest quotation on the street was 130% a 137. There was a very etive borrowing demand for coin, and loans were made about noon as high as one per cent until Monlay, the "squeeze" being evidently, to a great ex-Fransactions were reported "flat." The rates paid or the use of coin until Monday varied as follows:-8-64, 1-16, 5-64, 7-64, %, 5-32, 3-16, 7-32, 3-32, %, %, % %, % and %. The volume of business was large, and the speculative transactions were almost entirely on the bear side. The gross clearings amounted to \$117.987.000; the gold balances to \$3.654.000 and the currency balances to \$5,443,643. The bids for the \$300,000 gold sold at the Sub-Treasury aggregated \$3,125,000 at prices ranging from 136 to 137 15-100, and Lounsberry & Fanshawe were awarded the entire amount. The high rates which the bears are compelled to pay for the use of gold with which to make their deliveries has a tendency to check speculation for a fall, as unless the premium declines from day to day to a greater extent than the per ntage paid for borrowing there is clearly no profit for the bears, the rate which loans command being equivalent to a corresponding advance in the premium. The price fluctuated as follows at intervals:-

The demand for government securities continued unabated all day, and prices experienced a further strengthened confidence in the public credit, and in duced those who before held back to enter the market as buyers. There is a great scarcity of regis tered bonds reported, and the dealers are in conse quence compelled to send coupon five-twenties of the later issues to the Treasury to be transferred to the registered list. On the Stock Exthere was a somewhat irregular and excited market, especially for the railway shares, which have advanced the most rapidly during the last few days. Milwaukee and St. Paul reacted sharply downward, and Fort Wayne ruled from one to three per cent lower than at the 1195 and 116, and the former between 1:4 and 108. These stocks are being manipulated by a well known Wali street capitalist who is a director of the Mflwaukee and St. Paul Company, and hence to a great extent their recent rapid advance. The quotations of the morning were not sustained in the afternoon, and an unsettled seeling succeeded the previous buoyancy. The State stocks, and especially Tennessee sixes, new, were strong and active at a further advance. Money was in good supply at six and seven per cent, and in exceptional instances the leading dealers in governent securities had balances left with them at five. The banks and trust companies ask seven per cent, however, and as they have only a limited amount of funds at their disposal they are indisposed to make loans below this rate. The discount line remains unchanged, first class commercial paper, with from four to six months to run, being in moderate supply and fair request at the legal rate.

The statement of the associated banks of this city for the week shows a decrease of \$1,378,229 in legal tenders, \$951,447 in loans, \$150,477 in specie and \$173,411 in deposits, and an increase of \$25,515 in circulation. The totals of the present and last pre-

A commercial week y thus refers to the dry goods trade in this city during the week:-The dry goods feature to report, the political contest having greatly absorbed the attention of the mercan ile comnunity to the detriment of business activity. In staple cottons we have no improvement to note, and the supplies being generally once more in excess of and prices have a weaker tendency, although in most instances there is no quotable change since our last issue. Manufacturers complain of the diminished rates realized on their products, especially on fabrics woven with cotton bought at extreme prices; but it must be remembered that the rapid advance of the raw material during the last spring and summer placed them in a sound position to withstand the loss incurred by this reaction in quotations. Jobbers are thus in no way to blame in trying to stimulate the dem .nd by concession, as they cannot afford, with their enormous expenses, to stand idle; but it is to be hoped that with the advent of cold weather the demand for consumption will increase so materially as to absorb the present accumulation, and thus prepare the way for a spring trade remunerative alike to manufac turers, jobbers and dealers.

THE LATE BUILDING CASUALTY. - The Superintendent of Buildings has ordered a board of survey on the new building No. 454 West Thirty-fourth street, the walls of which fell down on Thursday evening. The building is owned by Mr. Hugh Mahon, who commenced to build without submitting his speciacations to the Superintendent or any of his officers, cations to the Superintendent or any of his officers, as provided for by law. The building has been examined, so far as could be done while the debris remains. The workmen state that the "trimmer" beam of the wall gave way, and, failing on the cross beams, broke them, thus causing the wall to toppie over. The chimney was built against an old wall, and the failling of the other wall against it caused that to fail also. Board of survey have also been ordered on the following buildings, reported unsate:—No. 257 Centre street, No. 67 Fulton street and No. 115 Ulyssion street.
